

MARTIN HOLOUBEK

FULL-STACK DEVELOPER
FOCUSED ON MOBILE APPS

PERSONAL PROFILE

I'm a Computer Science student with experience in freelancing, working in an IT company, and building my own projects. I don't define myself by the work I've done. I define myself by the work I want to do.

Skills can be taught, personality is inherent. I prefer to keep learning, challenging myself, and doing interesting things that matter.

WORK EXPERIENCE

MeeW (Team CURVEx)

Mobile App Developer (1/2022 - 6/2022)

Developing Flutter App for AI meditation with a brain scanner. Dealing with a complex backlog of tasks, such as Bluetooth connectivity with Objective-C, animations, and data visualization.

LATEST PERSONAL PROJECTS

Stampit

Mobile App - Flutter, Dart, Firebase

Cross-platform mobile app for storing digital loyalty cards in your mobile device. Stamps are added by reading and validating NFC tag. Fresh in production, only two cafes use it now, but the demand looks huge. Available on App Store and Google Play.

GetCoffee

Mobile App - Flutter, Dart, Firebase

Cross-platform mobile app for searching and sorting coffee bars around you. Available on App Store and Google Play. Redesign and new features are coming soon.

EDUCATION

High School - Nymburk

Class of 2020

- Graduated with honors
- Central Bohemia technician competition winner

ČVUT Praha - Faculty of information technology

Two passed semesters, left because of my desire to study in Denmark

- Learned database modeling, low level C programming, Python
- Linear algebra, embedded systems programming

ZEALAND Roskilde - Computer Science

September 2021 - Now

- Focused on C# development.

ADDITIONAL HOBBIES & EXPERIENCE

I used to play the highest basketball league in the Czech Republic. During winter, I teach kids how to ski with an international ski instructor license and I have a passion for good filtered coffee and having a hyggelig time with family and friends.
